Want more?

Every page on colouringnest.com has a free A4 and US Letter PDF. Search by theme, or see the seasonal calendar at colouringnest.com/calendar/ for what to print each month.

How to use this kit

A short guide for rest homes, care facilities, retirement villages and day centres.

1 Start with bold and easy

Pages with thick lines and big spaces are easier to see and to colour inside. Print them a little darker if your printer allows.

2 Offer a choice

Put out two or three pages and let each person choose. Some people prefer word searches to colouring, and that is fine.

3 Keep it relaxed

There is no right way to colour. Chunky pencils, felt pens or crayons all work; keep sessions short and stop when people have had enough.

4 Read our guides

Our guide to sharing colouring with someone living with dementia has practical tips from carers and health organisations, with sources.

5 Share with families

Families can print the same pages at home for visits. The poster QR code opens our seniors page.
