Treasure basket safety check

Check every item before each session. If in doubt, leave it out.

- [ ] Every item is bigger than a toilet-roll tube opening, so it cannot be swallowed.
- [ ] No cords, ribbons, string or chains that could wrap around a neck.
- [ ] No button batteries, magnets, beads, balloons or loose small parts.
- [ ] No sharp edges, splinters, cracks or peeling paint. Smooth the lids of tins.
- [ ] Nothing toxic: no plants you are unsure of, no cleaning products, no medicine bottles.
- [ ] Wash or wipe items after each session, and check them again before the next.
- [ ] An adult sits close and watches the whole time.
- [ ] Swap items out regularly; keep the basket small (8 to 20 things).
