Types of teeth

Write I, C, P or M on each tooth, then colour them using the key.

Name _____

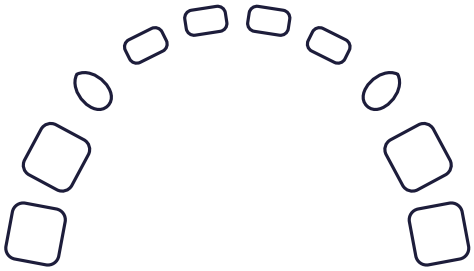

A grown-up's top teeth

A grown-up's bottom teeth

A child's top milk teeth

Key

I — **incisors**
flat and sharp at the front: they cut and bite food

C — **canines**
pointed: they grip and tear food

P — **premolars**
two bumps on top: they crush and grind food

M — **molars**
big and wide at the back: they crush and grind food

How many of each?

	grown-up	child
incisors		
canines		
premolars		
molars		

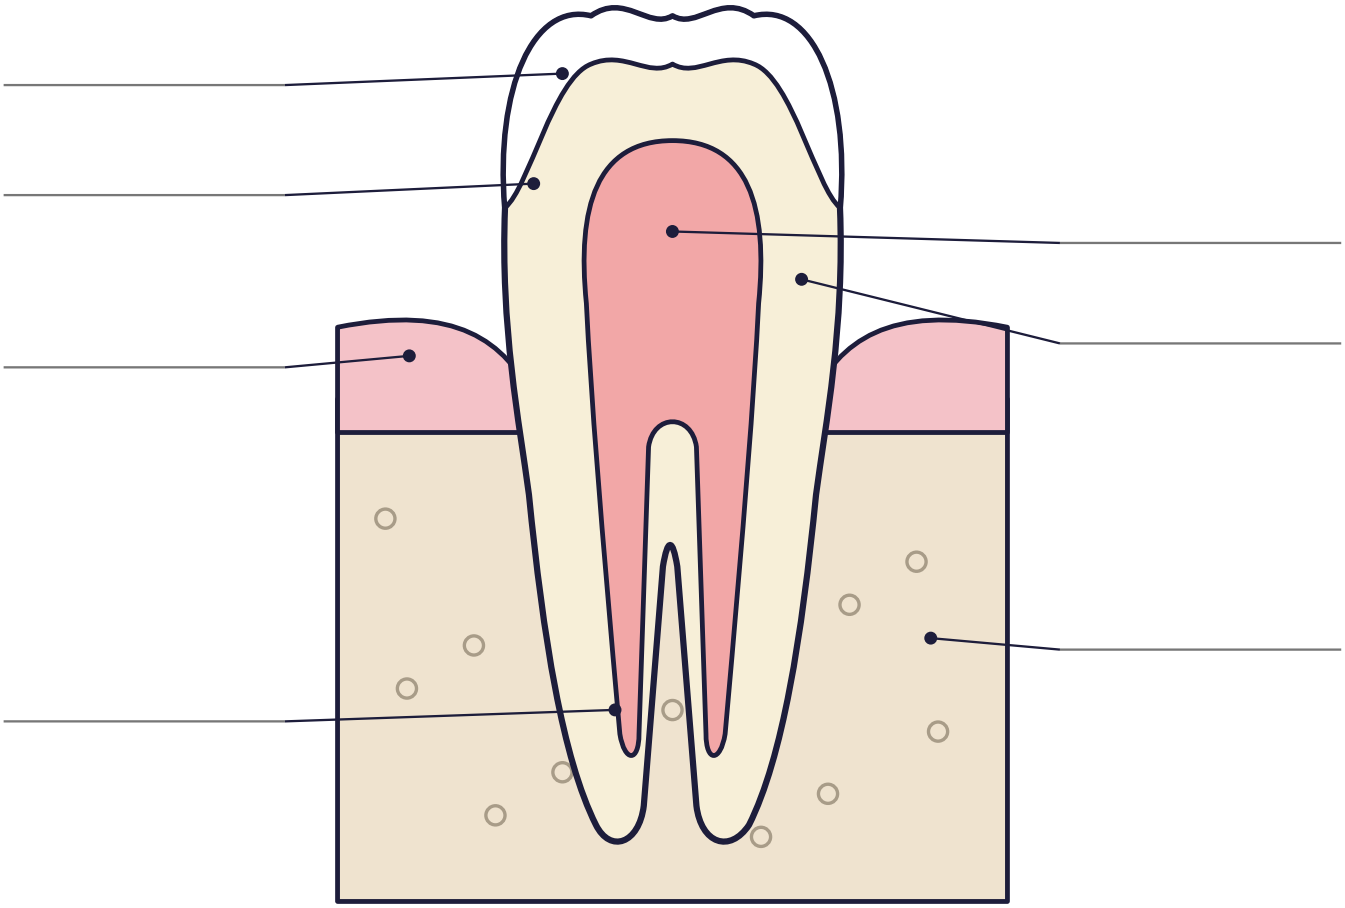

1. A grown-up has _____ teeth, including 4 wisdom teeth at the very back.

2. A child has _____ milk teeth. Milk teeth have no _____ .

Inside a tooth

A molar cut in half. Label the parts using the word bank.

Name _____

Word bank

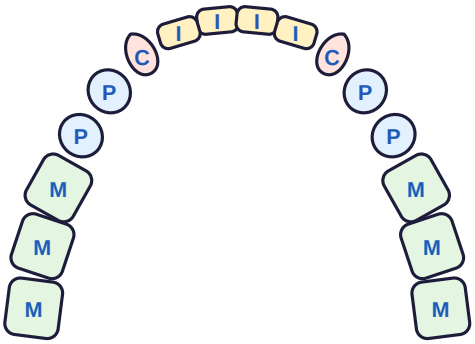

crown	dentine	enamel	gum	jawbone
pulp	root			

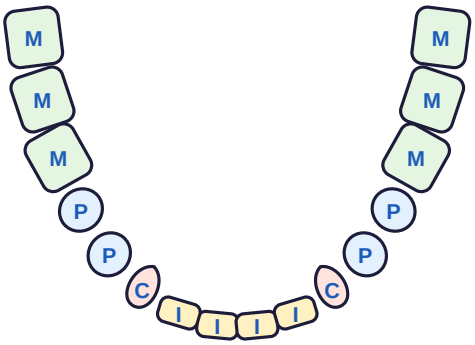

Enamel is the hardest part of your body. It cannot grow back, so brush twice a day.

The pulp has nerves and blood vessels. Dentine is under the enamel.

Answers: types of teeth

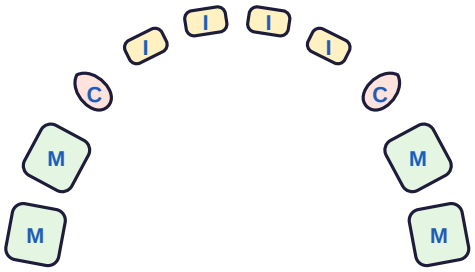

A grown-up's top teeth

A grown-up's bottom teeth

A child's top milk teeth

Key
