How to draw a polar bear face

1. Draw a big circle for the polar bear's head.

2. Draw two round ears on top, with a smaller circle inside each one.

3. Draw a wide oval at the bottom of the face for the muzzle.

4. Draw the nose at the top of the muzzle.

5. Draw two dot eyes above the muzzle.

6. Draw the mouth: a short line down from the nose, then a little curve each side.

Now draw your own polar bear face
