How to draw a present

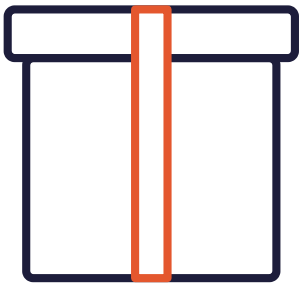

1. Draw a big box for the present.

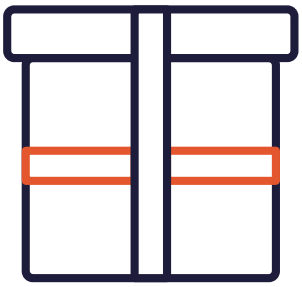

2. Draw the lid: a flat rectangle on top that sticks out a little at each side.

3. Draw a ribbon straight down the middle, over the lid and the box.

4. Draw the ribbon going across the box on both sides.

5. Draw a bow on top: two loops and a round knot in the middle.

6. Add spots to the paper so it looks like gift wrap.
