Lucky money maths: count the coins

Australia coins. Add up the coins in each red envelope and write the total.

Name _____ Date _____

1. 

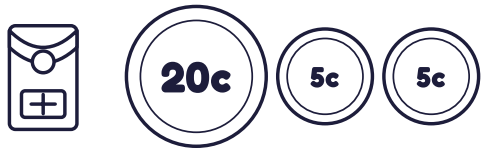

= ☐

2. 

= ☐

3. 

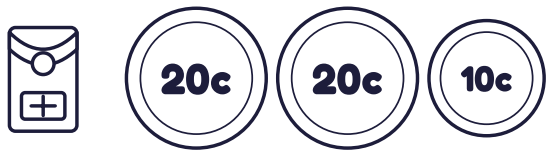

= ☐

4. 

= ☐

5. 

= ☐

6. 

= ☐

Coins are simple drawings with the value written on them, not the real designs. Sizes are in proportion.

Lucky money maths: bigger amounts

Australia coins. Add up the coins in each red envelope and write the total.

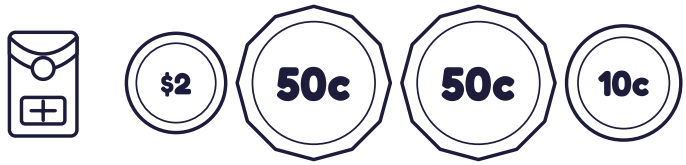

Name _____ Date _____

1. 

= ☐

2. 

= ☐

3. 

= ☐

4. 

= ☐

5. 

= ☐

6. 

= ☐

Coins are simple drawings with the value written on them, not the real designs. Sizes are in proportion.

Lucky money maths: fill the envelope

Australia coins. Draw the fewest coins that make each amount.

Name _____ Date _____

Coins you can use

65c

coins: _____

$1.20

coins: _____

$2.45

coins: _____

$3.80

coins: _____

Answers: Lucky money maths (AU)

Count the coins

1. 20c + 20c + 10c + 10c = 60c
2. 50c + 5c = 55c
3. 5c + 5c + 5c + 5c = 20c
4. 20c + 5c + 5c = 30c
5. 10c + 5c = 15c
6. 20c + 20c + 10c = 50c

Bigger amounts

1. $2 + $1 + 50c + 50c + 20c + 5c = $4.25
2. $1 + $1 + $1 + 50c + 20c + 10c = $3.80
3. $2 + 50c + 50c + 10c = $3.10
4. $2 + 20c + 20c + 20c + 20c + 10c = $2.90
5. $2 + 10c + 10c = $2.20
6. $2 + 20c + 10c + 5c = $2.35

Fill the envelope (fewest coins)

1. 65c: 50c + 10c + 5c (3 coins)
2. $1.20: $1 + 20c (2 coins)
3. $2.45: $2 + 20c + 20c + 5c (4 coins)
4. $3.80: $2 + $1 + 50c + 20c + 10c (5 coins)
