Printable centimetre rulers for beginners

Whole centimetres only, with big numbers. Cut out six 15 cm rulers.

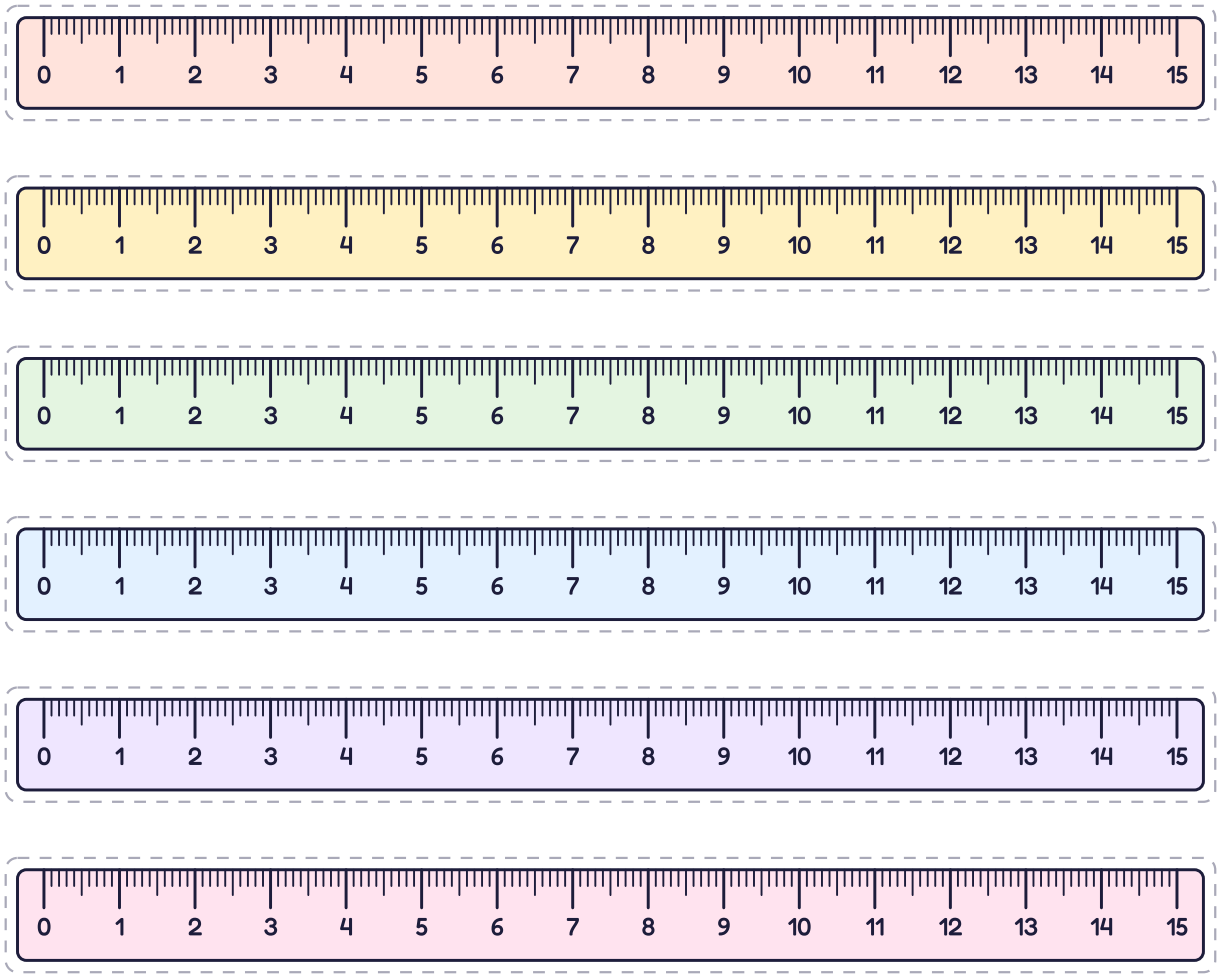

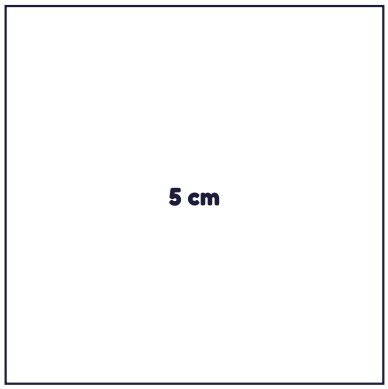

This square should be exactly 5 cm on each side.

Print at 100% (Actual size), not “Fit to page”. Then measure the square with a ruler you trust.

Printable ruler: centimetres and millimetres

Six 15 cm rulers with millimetre marks. Long marks are centimetres, the middle mark is 5 mm.

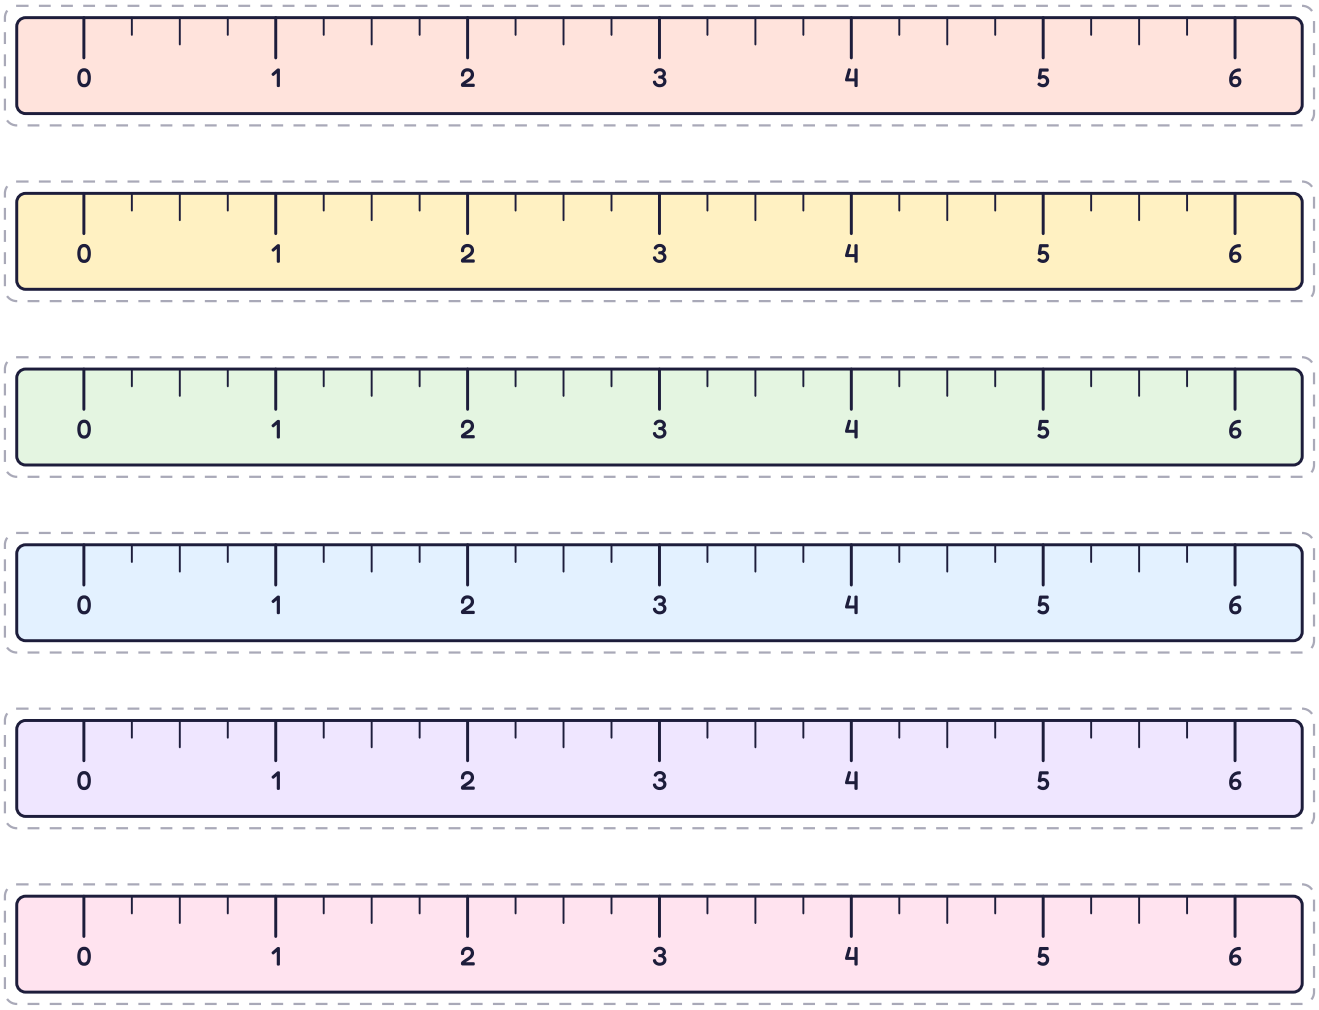

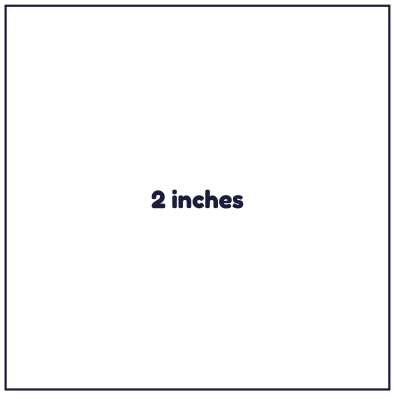

This square should be exactly 5 cm (50 mm) on each side.

Print at 100% (Actual size), not “Fit to page”. Then measure the square with a ruler you trust.

Printable ruler: inches

Six 6-inch rulers marked in halves and quarters of an inch.

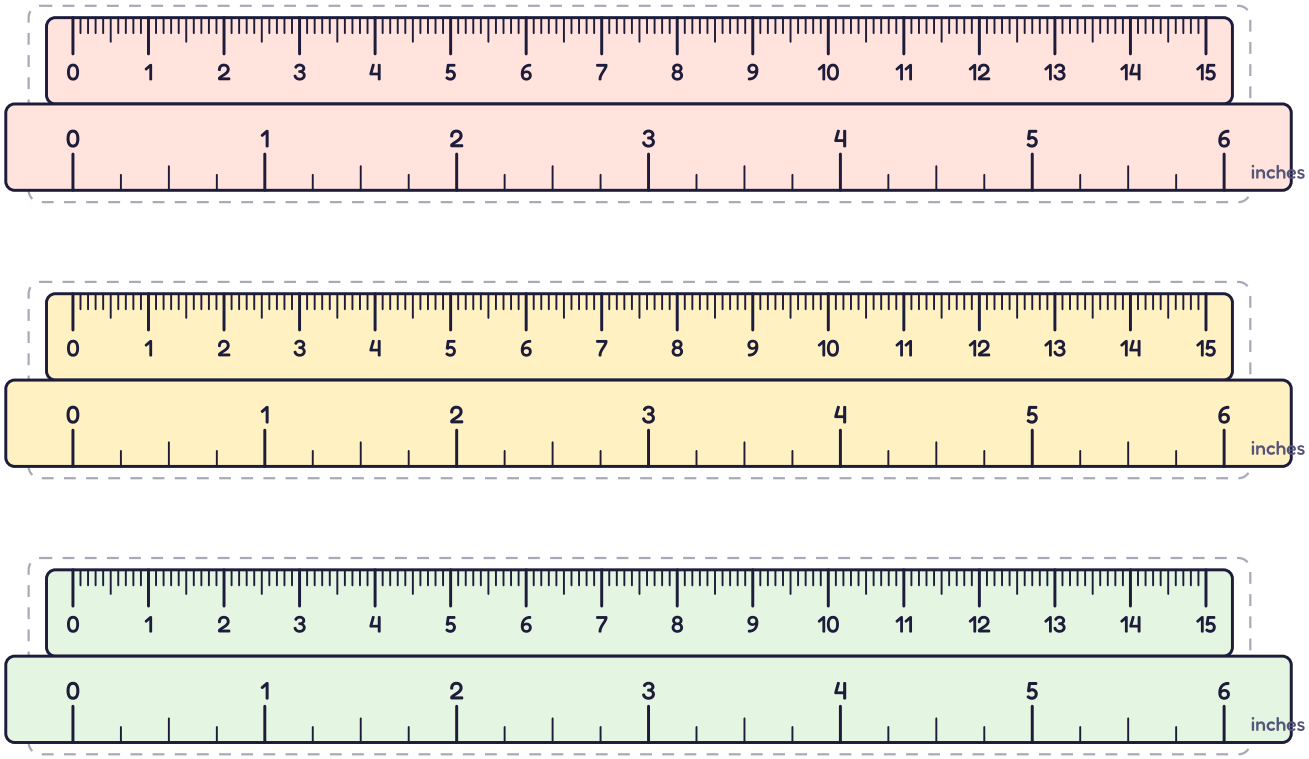

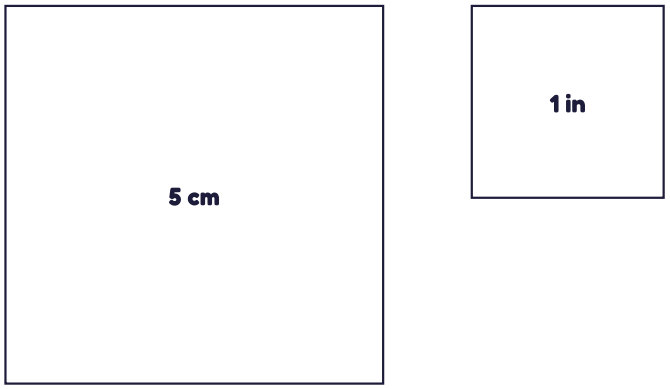

This square should be exactly 2 inches on each side.

Print at 100% (Actual size), not “Fit to page”. Then measure the square with a ruler you trust.

Printable ruler: inches and centimetres

Three rulers with centimetres on one edge and inches on the other. Both start at the same 0.

Check both squares: 5 cm and 1 inch on each side.

Print at 100% (Actual size), not “Fit to page”. Then measure the square with a ruler you trust.
