Water Easier ☆

Test five things. Which float? Which sink?

Water Easier ☆

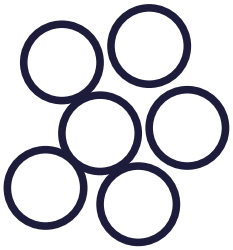

Pour water from a big jug into small cups.

Water Easier ☆

Wash the dolls' clothes and hang them up.

Water Harder ☆☆

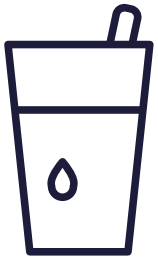

Make a boat that carries 5 counters.

Water Harder ☆☆

Move water from one tub to another with a funnel and a tube.

Water Harder ☆☆

Make coloured water. Line cups up from lightest to darkest.

For grown-ups Water · easier

"Pour water from a big jug into small cups."

Ask:

- Which cup holds the most?
- Is it full, half full or empty?
- How can you pour without spilling?

Look for:

capacity words, hand control

For grown-ups Water · easier

"Test five things. Which float? Which sink?"

Ask:

- What do you think will happen?
- Why did that one sink?
- Can you make it float?

Look for:

predicting, sorting into two groups

For grown-ups Water · harder

"Make a boat that carries 5 counters."

Ask:

- What will you make it from?
- How many can it hold before it sinks?
- How could it hold more?

Look for:

designing, testing, counting

For grown-ups Water · easier

"Wash the dolls' clothes and hang them up."

Ask:

- How do you get them clean?
- Where does the water go when you squeeze?
- How will they dry?

Look for:

caring, squeezing, fine motor

For grown-ups Water · harder

"Make coloured water. Line cups up from lightest to darkest."

Ask:

- How many drops did you use?
- Which is the darkest?
- How can you make it lighter?

Look for:

ordering, describing colour

For grown-ups Water · harder

"Move water from one tub to another with a funnel and a tube."

Ask:

- Which way does the water go?
- Can you make it go faster?
- What happens if you lift the tube?

Look for:

cause and effect, persistence
