Valentine's Day is on 14 February. It is a day to show love and kindness to friends, family and the people we care about.

It is named after Saint Valentine, a Christian man who lived in Rome long ago. Not much is known about his life, and there are many different stories about him. His special day is 14 February.

More than 600 years ago, people in England and France began to link the day with love. They wrote poems and notes for the people they loved.

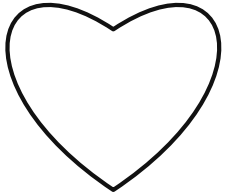

Today, many people give cards called valentines. Some cards are bought, and some are homemade, with hearts, flowers and kind words.
