Printable 12-inch ruler in two pieces

Three 12-inch (1 foot) rulers marked to 1/16 inch. Each comes in two 6-inch pieces to glue together.

How to join: cut out both pieces. Cut piece A exactly on its 6 line. Put glue on the grey tab of piece B and lay piece A on it so the end of A sits on the 6 line of B. Glue the joined ruler onto card to keep it straight.

2 cm

1 in

Check after printing: these squares should be exactly 2 cm and 1 inch on each side.
Print at 100% or “Actual size”. Turn off “Fit to page”, “Shrink to fit” and “Fit to printable area”.
If a square is out, so is every ruler on this page: change the setting and print again.
